

Het CompanyLedger Early Adopters Program

The CLC.COMPANYLEDGR tokens are so-called Fee-Backed Assets (FBAs). For further information about FBAs we refer to: <http://docs.bitshares.org/user/fba.html?highlight=fee-backed%20asset>.

The CLC.COMPANYLEDGR tokens give a proportional right (pro rata parte) until 2023 on a part of the “fee pool” (Blockchain fees) that are realized through the creation and transaction of tokens that have the CLC Quality Characteristic. Every quarter, the fees will be distributed amongst the Token Holders. To start on July 1st 2018 at 12:00 CET; September 1st 2018 at 12:00 CET; January 1st 2019 at 12:00 CET; etc. The final fee sharing will take place on December 31st 2022 at 24:00 CET. In 2023 the CLC.COMPANYLEDGR tokens will be recalled and do not give any rights on the Blockchain fees anymore. Thus, it concerns temporary tokens.

One-time only, 1.000.000 CLC.COMPANYLEDGR tokens have been created that are ownership of the initiator. The initiator makes a maximum amount of 500.000 CLC.COMPANYLEDGR tokens available for entrepreneurs, investors and partners in the CompanyLedger Early Adopters Program. The division is as follows:

- ✓ **Entrepreneurs**
For entrepreneurs a maximum of 200.000 tokens are available.
- ✓ **Investors**
For investors a maximum of 150.000 tokens are available.
- ✓ **Partners**
For partners a maximum of 150.000 tokens are available.
